

SYLLABUS BOOK

COURSE TITLE:	ADVANCE DIPLOMA MONTESSORI IN CHILD EDUCATION (ONE YEAR)
COURSE DURATION:	ONE YEAR
MEDIUM:	ENGLISH
ELIGIBILITY:	12 th PASS or GRADUATE
SECTOR:	MONTESSORI TEACHER AND CHILD EDUCATION SECTOR
COUNCIL:	NCVTC EDUCATIONAL TRAINING AND PLACEMENT COUNCIL

COURSE DESCRIPTION: -

The Advance Diploma in Montessori Child Education is a comprehensive one-year professional program designed to prepare educators with advanced knowledge and practical skills in early childhood education based on the Montessori method, developed by Maria Montessori. The course focuses on fostering the overall development of children through a structured, child-centered learning approach.

This program provides an in-depth understanding of child psychology, developmental stages, and learning behaviors, enabling trainees to support the intellectual, emotional, social, and physical growth of children. It emphasizes the importance of a prepared environment, self-directed learning, and hands-on educational activities that encourage independence and creativity.

The curriculum includes advanced study of Montessori principles, teaching methodologies, classroom management, curriculum planning, and the effective use of Montessori materials across areas such as practical life, sensorial education, language, and mathematics. It also integrates modern teaching techniques and inclusive education practices to address the diverse needs of learners.

A strong emphasis is placed on practical training, including classroom observation, teaching practice, lesson planning, and preparation of educational materials. Trainees gain real-world experience through internships and supervised teaching sessions, helping them develop confidence and professional competence.

This course is ideal for aspiring Montessori teachers, early childhood educators, school administrators, and individuals interested in establishing Montessori schools or early learning centers. Upon successful completion, candidates will be equipped to work in national and

international educational settings, contributing effectively to quality early childhood education and child development.

COURSE OBJECTIVES: -

The objectives of the Advance Diploma in Montessori Child Education program are to:

1. **Understand Advanced Montessori Philosophy**
To provide in-depth knowledge of the educational principles developed by Maria Montessori, focusing on child-centered and experiential learning.
2. **Develop Expertise in Child Development**
To enable trainees to understand detailed aspects of child growth and development, including cognitive, emotional, social, and physical domains.
3. **Master Montessori Teaching Methods**
To train candidates in advanced Montessori methodologies, including practical life, sensorial education, language, and mathematics.
4. **Promote Independent and Holistic Learning**
To foster self-directed learning, creativity, discipline, and critical thinking among children.
5. **Enhance Classroom Management Skills**
To develop the ability to create and manage a prepared Montessori environment effectively.
6. **Strengthen Observation and Assessment Skills**
To train teachers in observing children scientifically and assessing development without relying solely on traditional exams.
7. **Develop Curriculum Planning Skills**
To enable trainees to design Montessori-based lesson plans and academic programs.
8. **Encourage Inclusive Education Practices**
To prepare educators to handle diverse learners, including children with special needs.
9. **Improve Communication and Interpersonal Skills**
To enhance interaction with children, parents, and colleagues in educational settings.

10. Provide Extensive Practical Training

To offer hands-on experience through teaching practice, classroom observation, and internships.

11. Promote Professional Ethics and Leadership

To develop leadership qualities, ethical teaching practices, and responsibility in educational environments.

12. Prepare for Career and Entrepreneurship Opportunities

To equip candidates for roles as Montessori teachers, academic coordinators, or entrepreneurs in establishing Montessori schools and early childhood centers.

COURSE LESSON MODULE (THEORY)

1. Foundations of Montessori Education

- Life and contributions of Maria Montessori
- Principles and philosophy of Montessori education
- Aims and objectives of child-centered learning
- Comparison with traditional education systems

2. Child Growth and Development

- Stages of development (0–12 years)
- Physical, cognitive, emotional, and social development
- Sensitive periods and learning readiness
- Individual differences and learning styles

3. Advanced Montessori Methodology

- Concepts of self-directed learning
- Role of the Montessori teacher (Directress/Director)
- Freedom, discipline, and normalization
- Observation as a teaching tool

4. Practical Life Education (Theory)

- Importance and objectives of practical life activities
- Care of self, care of environment, grace and courtesy
- Development of independence, coordination, and concentration

5. Sensorial Education (Theory)

- Purpose and importance of sensorial materials
- Development of the five senses

- Grading, sequencing, and control of error
- Integration of sensorial learning with other areas

6. Language Development (Theory)

- Language acquisition in early childhood
- Montessori approach to reading and writing
- Phonetics, vocabulary, and grammar basics
- Storytelling and communication skills

7. Mathematics Education (Theory)

- Montessori approach to mathematics
- Number concepts and operations
- Use of Montessori math materials
- Development of logical and analytical thinking

8. Curriculum Planning and Lesson Design

- Preparation of Montessori lesson plans
- Designing daily and weekly activity schedules
- Integration of different learning areas
- Assessment through observation

9. Classroom Management and Prepared Environment

- Concept of prepared environment
- Classroom setup and organization
- Time management and activity flow
- Maintaining discipline and engagement

10. Health, Nutrition, and Child Care

- Basic health and hygiene practices
- Nutritional needs of children
- Safety measures and first aid awareness
- Emotional well-being of children

11. Inclusive Education and Special Needs

- Understanding diverse learning needs
- Supporting children with developmental challenges
- Inclusive teaching strategies
- Equal opportunities in education

12. Educational Technology and Teaching Aids

- Use of Montessori materials and teaching aids
- Audio-visual tools in early education
- Creative teaching techniques
- Activity-based and experiential learning

13. School Organization and Administration

- Basics of school management
- Record keeping and documentation
- Communication with parents
- Professional ethics and responsibilities

COURSE TRAINING MODULE (PRACTICAL)

1. Practical Life Activities

- Demonstration of exercises: pouring, spooning, transferring, folding
- Care of self (dressing frames, personal hygiene activities)
- Care of environment (cleaning, arranging, gardening)
- Grace and courtesy exercises
- Development of coordination, concentration, and independence

2. Sensorial Activities Practice

- Presentation of sensorial materials
- Visual discrimination (size, shape, color)
- Tactile activities (touch boards, fabrics)
- Sound, smell, and taste exercises
- Grading, matching, and sequencing activities

3. Language Activities Practice

- Phonetic sound exercises and letter recognition
- Use of sandpaper letters and movable alphabet
- Word formation and reading readiness activities
- Storytelling and conversation practice
- Rhymes, songs, and vocabulary development

4. Mathematics Activities Practice

- Introduction to numbers using Montessori materials
- Number rods, spindle boxes, and bead materials
- Basic operations: addition, subtraction, multiplication, division
- Development of logical thinking and problem-solving skills

5. Montessori Materials Handling and Presentation

- Correct use of Montessori apparatus
- Step-by-step lesson presentation techniques
- Control of error and self-learning methods
- Care, maintenance, and organization of materials

6. Classroom Observation

- Observation of children in a Montessori environment
- Recording developmental progress and behavior
- Identifying learning styles and individual differences
- Preparation of observation reports

7. Teaching Practice (Internship)

- Practice teaching in Montessori classrooms
- Lesson planning and execution
- Classroom interaction and child guidance
- Evaluation and feedback from supervisors

8. Classroom Management Skills

- Organizing the prepared environment
- Managing mixed-age groups
- Time management during activities
- Positive discipline techniques

9. Teaching Aids and Material Preparation

- Preparation of low-cost Montessori materials
- Charts, flashcards, and models
- Creative teaching aids for early learning
- Use of audio-visual tools

10. Child Care and Health Practices

- Hygiene and cleanliness practices
- Basic first aid and safety awareness
- Nutrition planning for children
- Emotional care and support

11. Communication and Interpersonal Skills

- Teacher-child interaction techniques
- Communication with parents

- Group activity facilitation
- Building positive relationships

12. Record Keeping and Assessment

- Maintaining student progress records
- Portfolio and activity file preparation
- Observation-based assessment methods
- Reporting and documentation

13. Project Work and Portfolio Development

- Preparation of Montessori activity files
- Development of teaching portfolios
- Presentation and demonstration of lessons
- Organizing exhibitions and displays

THEORY SYLLABUS CONTENTS: -

1. Advanced Montessori Philosophy & Child Psychology

- Principles of Montessori Education
- Role of the Teacher as a Facilitator
- Stages of Child Development (0–6 Years)
- Sensitive Periods and Absorbent Mind

2. Curriculum Design & Montessori Methodology

- Montessori Classroom Environment
- Lesson Planning and Presentation Techniques
- Observation and Assessment Methods
- Individualized Learning Approaches

3. Early Childhood Growth & Development

- Physical, Cognitive, Emotional & Social Development
- Language Development in Early Years
- Moral and Value Education
- Inclusive Education and Special Needs Awareness

4. Health, Nutrition & Child Safety

- Child Health, Hygiene & First Aid
- Nutrition for Young Children

- Safety Measures in Schools
- Child Protection Policies

5. Educational Management & Parent–Teacher Interaction

- Preschool Management & Administration
- Record Keeping and Documentation
- Communication Skills
- Parent–Teacher Collaboration

PRACTICAL SYLLABUS CONTENTS: -

1. Montessori Teaching Materials & Apparatus Handling

- Practical Use of Sensorial Materials
- Practical Life Exercises
- Language and Mathematics Apparatus Demonstration

2. Lesson Planning & Classroom Activities

- Preparation of Daily and Weekly Lesson Plans
- Conducting Montessori Activities
- Storytelling, Rhymes, and Creative Activities

3. Teaching Practice & Internship

- Supervised Teaching Practice
- Classroom Observation
- Activity-Based Learning Sessions

4. Project Work & Viva Voce

- Child Case Study
- Teaching Aids Preparation
- Practical Examination & Viva

EXAMINATION SUBJECTS (SYLLABUS)

ONE YEAR DURATION COURSE

THEORY SUBJECTS: -

- Advanced Montessori Philosophy & Child Psychology
- Curriculum Design & Montessori Methodology
- Early Childhood Growth & Development
- Health, Nutrition & Child Safety
- Educational Management & Parent–Teacher Interaction

PRACTICAL SUBJECTS: -

- Montessori Teaching Materials & Apparatus Handling
- Lesson Planning & Classroom Activities
- Teaching Practice & Internship
- Project Work & Viva Voce
