

SYLLABUS BOOK

COURSE TITLE:	CERTIFICATE IN EARLY CHILDHOOD CARE AND EDUCATION
COURSE DURATION:	SIX MONTHS
MEDIUM:	ENGLISH
ELIGIBILITY:	10 th PASS
SECTOR:	MONTESSORI TEACHER AND CHILD EDUCATION SECTOR
COUNCIL:	NCVTC EDUCATIONAL TRAINING AND PLACEMENT COUNCIL

COURSE DESCRIPTION: -

The Certificate in Early Childhood Care and Education (ECCE) is a short-term vocational program designed to provide foundational knowledge and practical skills for working with young children from birth to six years. The course focuses on the holistic development of children by integrating care, education, health, and emotional well-being.

This program introduces trainees to the principles of early childhood education, including child-centered learning approaches inspired by educators such as Maria Montessori. It emphasizes the importance of play-based learning, creativity, and nurturing environments that support the physical, cognitive, social, and emotional growth of children.

The curriculum covers essential areas such as child development, health and nutrition, hygiene, early learning methods, classroom management, and the preparation of teaching aids. Trainees also learn how to plan age-appropriate activities, manage preschool settings, and effectively communicate with children and parents.

Practical training is a key component of the course, including activity-based teaching, classroom observation, preparation of learning materials, and basic childcare practices. This hands-on experience helps build confidence and competence in handling real-life early childhood education settings.

This course is ideal for aspiring preschool teachers, childcare providers, daycare staff, and individuals interested in starting their own preschool or childcare center. Upon completion, candidates will be equipped to work in nurseries, kindergartens, Anganwadi's, and early learning centers, contributing positively to the development and well-being of young children.

COURSE OBJECTIVES: -

The objectives of the Certificate in Early Childhood Care and Education program are to:

1. **Understand Early Childhood Education Concepts**
To provide basic knowledge of ECCE principles, importance, and scope in child development.
2. **Develop Knowledge of Child Growth and Development**
To enable trainees to understand the physical, cognitive, emotional, and social development of children (0–6 years).
3. **Promote Child-Centered Learning**
To train learners in play-way and activity-based teaching methods inspired by approaches such as those of Maria Montessori.
4. **Enhance Child Care Skills**
To equip trainees with essential skills in health care, nutrition, hygiene, and safety practices for young children.
5. **Develop Teaching Competency**
To train candidates in lesson planning, classroom management, and effective teaching strategies for early learners.
6. **Encourage Creativity and Activity-Based Learning**
To promote creative teaching methods through storytelling, rhymes, games, and hands-on activities.
7. **Prepare Teaching Aids and Learning Materials**
To develop the ability to create low-cost and effective teaching aids and educational materials.
8. **Build Observation and Assessment Skills**
To train trainees in observing children's behavior and maintaining developmental records.
9. **Improve Communication Skills**
To enhance interaction with children, parents, and colleagues in educational settings.
10. **Promote Inclusive and Supportive Learning Environment**
To create awareness about handling diverse learners and supporting individual needs.

11. Provide Practical Exposure

To offer hands-on experience through teaching practice, classroom observation, and childcare activities.

12. Prepare for Employment Opportunities

To enable candidates to work in preschools, daycare centers, Anganwadi's, and early learning environments or start their own childcare services.

COURSE LESSON MODULE (THEORY)

1. Foundations of Early Childhood Care and Education

- Meaning, scope, and importance of ECCE
- Objectives and principles of early childhood education
- Role of preschool teacher/caregiver
- Overview of child-centered approaches (including methods influenced by Maria Montessori)

2. Child Growth and Development

- Stages of development (0–6 years)
- Physical, cognitive, emotional, and social development
- Language development in early years
- Individual differences and factors affecting development

3. Health, Nutrition, and Hygiene

- Basic child health care and well-being
- Balanced diet and nutritional requirements for children
- Personal hygiene and sanitation
- Common childhood illnesses and prevention
- Safety and first aid awareness

4. Early Childhood Education Methods

- Play-way method and learning through play
- Kindergarten approach and activity-based learning
- Montessori approach and its principles
- Storytelling, rhymes, and creative activities
- Use of teaching aids and learning materials

5. Classroom Management and School Organization

- Preschool environment and setup

- Classroom organization and time management
- Discipline and behavior management
- Communication with parents and community
- Record keeping and documentation

6. Teaching Methods and Lesson Planning

- Methods of teaching young children
- Preparation of lesson plans and activity schedules
- Setting learning objectives and outcomes
- Evaluation and assessment techniques

7. Inclusive Education

- Understanding diverse learning needs
- Supporting children with special needs
- Equal opportunities in early education
- Classroom adaptation strategies

8. Educational Technology in ECCE

- Use of teaching aids, charts, and models
- Audio-visual tools in early education
- Introduction to digital learning resources
- Activity-based and experiential learning

9. Professional Ethics and Communication Skills

- Role and responsibilities of ECCE teacher
- Professional behavior and ethics
- Communication and interpersonal skills
- Teamwork and collaboration

COURSE TRAINING MODULE (PRACTICAL)

1. Activity Planning and Teaching Practice

- Preparation of daily and weekly lesson plans
- Conducting preschool activities (rhymes, storytelling, games)
- Circle time and group activities
- Classroom interaction and child engagement techniques

2. Teaching Aids and Learning Materials Preparation

- Preparation of charts, flashcards, picture cards, and models

- Use of low-cost and eco-friendly materials
 - Designing creative learning tools for children
 - Use of audio-visual aids in teaching
-

3. Play-Based Learning Activities

- Indoor and outdoor play activities
 - Creative play (role play, pretend play, free play)
 - Educational games for cognitive and motor development
 - Group and individual play strategies
-

4. Child Care and Health Practices

- Demonstration of personal hygiene practices
 - Basic first aid and safety measures
 - Nutrition planning for young children
 - Cleanliness and sanitation in preschool settings
-

5. Classroom Management Skills

- Organizing preschool classroom environment
 - Managing children's behavior positively
 - Time management during activities
 - Maintaining discipline through engaging methods
-

6. Art and Craft Activities for Children

- Drawing, coloring, and painting activities
 - Simple paper craft and clay modelling
 - Creative expression through art
 - Preparation of decorative and educational items
-

7. Storytelling, Rhymes, and Communication Skills

- Story narration techniques
 - Action songs and rhymes
 - Voice modulation and expression
 - Language development activities
-

8. Observation and Record Maintenance

- Techniques of observing children's behavior
 - Maintaining developmental records
 - Preparation of progress reports and portfolios
 - Assessment through observation and activities
-

9. Internship / Field Work

- Observation of preschool or daycare centers
 - Assisting in classroom activities
 - Practice teaching in real settings
 - Submission of internship report
-

10. Parent Interaction and Counseling

- Communication with parents
 - Conducting parent-teacher meetings
 - Guidance on child development and care
 - Building positive relationships with families
-

11. Safety and Child Protection

- Child safety measures in classroom and playground
 - Emergency preparedness
 - Awareness of child rights and protection policies
-

12. Project Work and Portfolio Preparation

- Preparation of teaching aids and activity files
- Development of individual projects
- Presentation and demonstration of work
- Maintenance of practical records

EXAMINATION SUBJECTS (SYLLABUS)

SIX MONTHS DURATION COURSE

THEORY SUBJECTS: -

- Foundations of Early Childhood Care and Education
- Child Growth and Development
- Health, Nutrition, and Hygiene
- Early Childhood Education Methods
- School Organization and Classroom Management

PRACTICAL SUBJECTS: -

- Activity Planning and Teaching Practice
- Teaching Aids and Learning Materials Preparation
- Child Care and Health Practices
- Observation and Record Maintenance
