

SYLLABUS BOOK

COURSE TITLE:	CRAFT TEACHER CERTIFICATE (CTC)
COURSE DURATION:	ONE YEAR
MEDIUM:	ENGLISH
ELIGIBILITY:	12'th PASS
SECTOR:	MONTESSORI TEACHER AND CHILD EDUCATION SECTOR
COUNCIL:	NCVTC EDUCATIONAL TRAINING AND PLACEMENT COUNCIL

COURSE DESCRIPTION: -

The Craft Teacher Certificate (CTC) is a one-year vocational training program designed to prepare individuals to become skilled art and craft instructors in schools, training centers, and community education programs. The course focuses on developing both creative abilities and teaching skills, enabling trainees to effectively guide students in various forms of art and craft activities.

This program provides a balanced blend of theoretical knowledge and practical training. Trainees learn the fundamentals of art and design, including elements such as line, color, texture, and form, along with principles of composition and creativity. The course also introduces different traditional and modern craft techniques such as paper craft, clay modelling, fabric work, and decorative arts.

In addition to artistic skills, the course emphasizes child psychology, teaching methodologies, and classroom management techniques. Trainees are trained to understand the developmental needs of learners and to foster creativity, imagination, and self-expression among students through activity-based learning.

The program also highlights the use of locally available and low-cost materials, encouraging innovation and sustainability in craft work. Trainees gain hands-on experience through practical sessions, project work, and teaching practice, which helps them build confidence and professional competence.

Upon successful completion of the course, candidates will be equipped to work as craft teachers, art instructors, or creative trainers in schools, vocational institutes, NGOs, and self-employment ventures such as running craft workshops or small-scale creative businesses.

COURSE OBJECTIVES: -

The objectives of the Craft Teacher Certificate (CTC) program are to:

1. **Develop Artistic Skills**
To provide trainees with fundamental knowledge of art and craft, including drawing, design, color theory, and various creative techniques.
2. **Promote Creativity and Innovation**
To encourage imagination, originality, and creative expression through different forms of craft and artistic activities.
3. **Understand Child Development**
To equip trainees with basic knowledge of child psychology and developmental stages to effectively guide learners in creative activities.
4. **Enhance Teaching Competency**
To train candidates in effective teaching methods, lesson planning, and classroom management for art and craft education.
5. **Learn Various Craft Techniques**
To provide hands-on knowledge of paper craft, clay modeling, fabric work, painting, and other traditional and modern craft forms.
6. **Use of Teaching Aids and Materials**
To develop skills in preparing and using low-cost and eco-friendly teaching aids and craft materials.
7. **Encourage Activity-Based Learning**
To promote practical, student-centered learning approaches that enhance participation and skill development.
8. **Develop Communication Skills**
To improve interaction with students, parents, and colleagues in an educational environment.
9. **Foster Entrepreneurship Skills**
To enable trainees to start small-scale craft-based businesses, workshops, or self-employment ventures.
10. **Promote Cultural Awareness**
To create awareness and appreciation of traditional and regional arts and crafts.

11. Ensure Safety and Discipline

To train candidates in safe handling of tools and materials and maintaining discipline in craft classrooms.

12. Prepare for Professional Roles

To equip trainees with the necessary skills to work as craft teachers, art instructors, or trainers in schools and vocational institutions.

COURSE LESSON MODULE (THEORY)

1. Principles of Art and Craft Education

- Meaning and importance of art in education
- Elements of art: line, shape, color, texture, form, space
- Principles of design: balance, harmony, rhythm, proportion, unity
- Role of craft in personality and skill development

2. Child Psychology and Creative Development

- Stages of child growth and development
- Creativity and imagination in children
- Learning behavior and individual differences
- Motivation and encouragement in creative learning

3. History of Art and Craft

- Introduction to Indian traditional arts and crafts
- Folk and tribal art forms (Madhubani, Warli, etc.)
- Cultural heritage and its importance
- Basic overview of world art and craft traditions

4. Materials and Methods in Craft Work

- Types of materials: paper, clay, fabric, wood, metal, waste materials
- Tools and equipment used in craft work
- Techniques of handling different materials
- Safety precautions and maintenance of tools

5. Teaching Methods and Lesson Planning

- Methods of teaching art and craft
- Preparation of lesson plans
- Classroom organization and management
- Evaluation and assessment techniques

6. Environmental and Sustainable Craft

- Use of eco-friendly and recycled materials
 - Best-out-of-waste concepts
 - Awareness of environmental protection through craft
 - Sustainable art practices
-

7. Educational Technology in Art and Craft

- Use of teaching aids and visual materials
 - Charts, models, and demonstration techniques
 - Introduction to digital tools in art education
 - Activity-based and experiential learning
-

8. School Organization and Professional Ethics

- Role and responsibilities of a craft teacher
 - Basic school management and record keeping
 - Communication with students and parents
 - Professional ethics and discipline
-

COURSE TRAINING MODULE (PRACTICAL)

1. Drawing and Sketching

- Freehand drawing and object drawing
 - Nature study and still-life composition
 - Shading and coloring techniques
 - Design and pattern creation
-

2. Painting Techniques

- Watercolor, poster color, and basic acrylic painting
 - Brush handling and color mixing
 - Theme-based and creative painting
 - Decorative and mural art basics
-

3. Paper Craft and Origami

- Paper folding (origami) techniques
 - Paper cutting and collage work
 - Greeting cards, paper models, and decorative items
 - Creative paper design and craft projects
-

4. Clay Modeling and Sculpture

- Basic clay handling techniques
- Preparation of simple objects and figures

- Relief work and miniature models
- Introduction to sculptural forms

5. Fabric and Textile Craft

- Fabric painting and block printing
- Basic stitching and embroidery
- Tie and dye techniques
- Decorative textile crafts

6. Handicrafts and Decorative Work

- Preparation of handicraft items
- Use of beads, threads, and natural materials
- Home decoration and utility items
- Traditional and modern craft techniques

7. Waste Material Craft (Eco-Friendly Craft)

- Best out of waste projects
- Recycling and reuse of materials
- Environmental awareness through craft
- Innovative and low-cost craft creation

8. Teaching Aids Preparation

- Preparation of charts, models, and flashcards
- Craft-based teaching aids for classroom use
- Creative educational tools
- Demonstration techniques

9. Classroom Practice and Teaching Training

- Practice teaching sessions
- Lesson demonstration in art and craft
- Classroom management during activities
- Student engagement techniques

10. Exhibition and Project Work

- Preparation of craft projects
- Organizing art and craft exhibitions
- Presentation and display techniques
- Portfolio development

11. Safety and Tool Handling

- Safe use of scissors, cutters, adhesives, and tools
- Maintenance and storage of materials
- Cleanliness and discipline in the workspace

12. Communication and Presentation Skills

- Interaction with students during practical sessions
- Demonstration and explanation techniques
- Confidence building and presentation skills

THEORY SYLLABUS CONTENTS: -

1. Principles of Art and Craft Education

- Meaning, scope, and importance of art education
- Role of art and craft in school curriculum
- Objectives of teaching art and craft
- Elements of art: line, shape, form, color, texture, space
- Principles of design: balance, harmony, rhythm, unity, proportion

2. Child Psychology and Creative Development

- Meaning and importance of child psychology
- Stages of growth and development
- Intellectual, emotional, and social development
- Creativity and imagination in children
- Individual differences and learning styles
- Motivation techniques in art education

3. History of Art and Craft

- Evolution of art and craft in India
- Traditional Indian arts: folk and tribal art forms (e.g., Madhubani, Warli)
- Handicrafts of India and their cultural significance
- Introduction to world art movements
- Appreciation of art and cultural heritage

4. Materials and Methods in Craft Work

- Types of materials: paper, clay, wood, fabric, metal, natural and waste materials
 - Tools and equipment used in craft work
 - Methods of handling different materials
 - Safety measures and precautions
 - Storage and maintenance of materials
-

5. Teaching Methods in Art and Craft

- Methods of teaching: demonstration, activity-based, project method
- Steps in teaching art and craft
- Role of teacher in creative education
- Use of teaching aids and visual materials
- Classroom organization and management

PRACTICAL SYLLABUS CONTENTS: -

1. Drawing and Sketching

- Freehand drawing (lines, shapes, patterns)
- Object drawing and still-life composition
- Nature drawing (flowers, leaves, scenery)
- Shading techniques (pencil, charcoal)
- Design and border creation

2. Painting

- Basics of color theory and color mixing
- Watercolour, poster color, and basic acrylic techniques
- Theme-based painting (nature, festivals, social themes)
- Decorative painting and simple mural work
- Brush techniques and finishing methods

3. Paper Craft and Origami

- Paper folding (origami models)
- Paper cutting and collage work
- Greeting cards, envelopes, and decorative items
- Paper quilling and paper flower making
- 3D paper models and craft projects

4. Clay Modelling and Sculpture

- Preparation and handling of clay
- Making simple objects (fruits, toys, models)
- Human and animal figure modelling
- Relief work and basic sculpture techniques
- Finishing, drying, and preservation

5. Fabric and Textile Craft

- Fabric painting and block printing
- Tie and dye techniques
- Basic stitching and embroidery (running stitch, chain stitch, etc.)

- Decorative textile items (bags, covers)
- Use of fabric waste for craft

6. Handicrafts and Decorative Work

- Preparation of handicraft items using beads, threads, and natural materials
- Wall hangings, showpieces, and home décor items
- Traditional and modern craft techniques
- Festival and cultural craft items

7. Waste Material Craft (Eco-Friendly Craft)

- Best-out-of-waste projects
- Reuse of plastic, paper, cardboard, and household materials
- Creative models and utility items
- Environmental awareness through craft activities

8. Teaching Aids Preparation

- Preparation of charts, flashcards, and models
- Craft-based educational aids for classroom use
- Creative learning materials for children
- Demonstration and presentation techniques

9. Practice Teaching and Demonstration

- Conducting art and craft classes
- Lesson demonstration and activity execution
- Student participation and engagement techniques
- Classroom management during practical sessions

10. Project Work and Portfolio

- Preparation of individual and group craft projects
- Maintenance of practical record/portfolio
- Display and presentation of work
- Organizing exhibitions and displays

11. Tool Handling and Safety

- Safe use of scissors, cutters, adhesives, and craft tools
- Maintenance and storage of tools and materials
- Cleanliness and discipline in the workspace

12. Communication and Presentation Skills

- Demonstration skills in practical teaching

- Interaction with students during activities
- Confidence building and effective presentation
- Group activity coordination

EXAMINATION SUBJECTS (SYLLABUS)

ONE YEAR DURATION COURSE

THEORY SUBJECTS: -

- Principles of Art and Craft Education
- Child Psychology and Learning Methods
- History of Art and Craft
- Materials and Methods in Craft Work
- Teaching Methods and Lesson Planning

PRACTICAL SUBJECTS: -

- Drawing and Painting
- Paper Craft and Origami
- Clay Modelling and Sculpture
- Handicrafts and Creative Work
