

SYLLABUS BOOK

COURSE TITLE:	DIPLOMA IN INTERNATIONAL MONTESSORI TEACHER TRAINING
COURSE DURATION:	ONE YEAR
MEDIUM:	ENGLISH
ELIGIBILITY:	12 th PASS
SECTOR:	MONTESSORI TEACHER AND CHILD EDUCATION SECTOR
COUNCIL:	NCVTC EDUCATIONAL TRAINING AND PLACEMENT COUNCIL

COURSE DESCRIPTION: -

The Diploma in International Montessori Teacher Training is a specialized program designed to equip aspiring educators with the knowledge, skills, and practical experience required to teach children using the Montessori method, pioneered by Maria Montessori. The course focuses on child-centered education that nurtures independence, creativity, and a lifelong love for learning.

This program provides a strong foundation in Montessori philosophy and principles, emphasizing the natural development of children through self-directed activities and hands-on learning experiences. Trainees learn to observe and understand the developmental needs of children and create a supportive, engaging, and well-prepared learning environment.

The course curriculum includes subjects such as child psychology, early childhood education, Montessori teaching methods, classroom management, lesson planning, and the use of specialized Montessori materials. It integrates both theoretical knowledge and practical training, including teaching practice, classroom observation, and activity-based learning.

Designed for individuals who wish to pursue a career in early childhood education, this diploma is ideal for teachers, caregivers, school administrators, and entrepreneurs interested in establishing Montessori institutions. The program also highlights inclusive education, communication skills, and professional ethics to prepare trainees for diverse classroom settings.

Upon successful completion, candidates will be qualified to work as Montessori teachers in pre-primary and primary educational settings, both in India and internationally, contributing effectively to the holistic development of young learners.

COURSE OBJECTIVES: -

The objectives of the Diploma in International Montessori Teacher Training program are to:

1. **Understand Montessori Philosophy**
To provide a thorough understanding of the educational principles and philosophy developed by Maria Montessori, focusing on child-centered learning and holistic development.
2. **Develop Knowledge of Child Development**
To equip trainees with a strong foundation in child psychology and developmental stages, enabling them to understand the physical, cognitive, emotional, and social growth of children.
3. **Promote Child-Centered Teaching Skills**
To train educators in facilitating self-directed learning, encouraging independence, creativity, and problem-solving abilities among children.
4. **Master Montessori Teaching Methods**
To provide hands-on experience in the use of Montessori materials and teaching techniques across areas such as practical life, sensorial activities, language, and mathematics.
5. **Enhance Classroom Management Skills**
To develop the ability to organize and manage a Montessori classroom environment that is structured, engaging, and conducive to learning.
6. **Encourage Observation and Assessment Skills**
To train teachers in observing children effectively and assessing their progress without relying solely on traditional examination methods.
7. **Foster Inclusive Education Practices**
To prepare educators to handle diverse learners, including children with different learning needs, in an inclusive and supportive environment.
8. **Develop Communication and Interpersonal Skills**
To improve communication with children, parents, and colleagues, ensuring a collaborative and positive educational atmosphere.
9. **Provide Practical Teaching Experience**
To offer opportunities for teaching practice, classroom observation, and real-life application of Montessori methods.
10. **Prepare for Professional Opportunities**
To enable trainees to pursue careers as Montessori teachers, early childhood

educators, or to establish and manage Montessori schools both nationally and internationally.

COURSE LESSON MODULE (THEORY)

1. Introduction to Montessori Education

- Life and contributions of Maria Montessori
- Principles and philosophy of Montessori education
- Aims and objectives of Montessori system
- Comparison with traditional education methods

2. Child Psychology and Development

- Stages of child development (0–6 years)
- Cognitive, emotional, social, and physical development
- Sensitive periods in early childhood
- Learning behavior and individual differences

3. Montessori Methodology

- Concepts of self-directed learning
- Role of the Montessori teacher (Directress)
- Freedom and discipline in Montessori classroom
- Observation as a teaching tool

4. Practical Life Education (Theory)

- Importance of practical life activities
- Areas: care of self, care of environment, grace and courtesy
- Development of coordination, concentration, and independence

5. Sensorial Education (Theory)

- Purpose and importance of sensorial materials
- Development of the five senses

- Grading, sequencing, and control of error
- Visual, tactile, auditory, gustatory, and olfactory materials

6. Language Development (Theory)

- Language acquisition process in children
- Montessori approach to reading and writing
- Phonetics and vocabulary development
- Storytelling and communication skills

7. Mathematics Education (Theory)

- Basic mathematical concepts in Montessori method
- Number sense and operations
- Use of Montessori math materials
- Logical thinking and problem-solving skills

8. Classroom Management and Environment

- Prepared environment concept
- Classroom organization and layout
- Time management and activity planning
- Maintaining discipline and order

9. Health, Nutrition, and Child Care

- Basic health and hygiene practices
- Nutritional needs of young children
- Safety and first aid awareness
- Emotional well-being of children

10. Educational Technology and Teaching Aids

- Use of teaching aids and learning materials
- Audio-visual tools in early education
- Creative teaching techniques

- Activity-based learning methods

11. Inclusive Education

- Understanding diverse learning needs
- Supporting children with special needs
- Equal opportunities in education
- Classroom adaptation strategies

12. School Organization and Administration

- Basic school management principles
- Record keeping and documentation
- Communication with parents
- Professional ethics and responsibilities

COURSE TRAINING MODULE (PRACTICAL)

1. Montessori Practical Life Activities

- Demonstration of exercises: pouring, spooning, transferring, folding
- Care of self (dressing frames, personal hygiene activities)
- Care of environment (cleaning, arranging, gardening basics)
- Grace and courtesy exercises
- Development of coordination, concentration, and independence

2. Sensorial Activities Practice

- Handling and presentation of sensorial materials
- Activities for visual discrimination (size, shape, color)
- Tactile exercises (touch boards, fabrics)
- Sound, smell, and taste activities
- Grading and matching exercises

3. Language Activities Practice

- Phonetic sound exercises and letter recognition
- Use of sandpaper letters and movable alphabet
- Word building and reading exercises
- Storytelling and conversation practice
- Rhymes, songs, and vocabulary development

4. Mathematics Activities Practice

- Introduction to numbers using Montessori materials
- Counting, number rods, spindle boxes
- Basic operations (addition, subtraction, multiplication, division)
- Use of beads, boards, and other math tools
- Development of logical and analytical skills

5. Montessori Material Handling and Presentation

- Correct use of Montessori apparatus
- Step-by-step presentation techniques
- Control of error and self-correction methods
- Maintenance and organization of materials

6. Classroom Observation

- Observation of children in a Montessori environment
- Recording behavioral patterns and learning styles
- Understanding individual differences
- Preparing observation reports

7. Teaching Practice (Internship)

- Practice teaching in real or simulated classroom settings
- Lesson planning and execution
- Classroom interaction and child guidance

- Evaluation and feedback from supervisors

8. Classroom Management Skills

- Organizing the prepared environment
- Managing mixed-age groups
- Time management during activities
- Maintaining discipline through positive methods

9. Teaching Aids Preparation

- Preparation of low-cost Montessori materials
- Use of charts, flashcards, and models
- Creative activity design
- Use of audio-visual aids

10. Child Care and Safety Practices

- Basic first aid training
- Health and hygiene practices in classroom
- Child safety and emergency handling
- Emotional care and support

11. Communication and Interaction Skills

- Teacher-child interaction techniques
- Communication with parents
- Group activity facilitation
- Building positive relationships

12. Record Keeping and Assessment

- Maintaining student progress records
- Portfolio preparation
- Non-formal assessment methods
- Reporting and documentation

EXAMINATION SUBJECTS (SYLLABUS)

ONE YEAR DURATION COURSE

THEORY SUBJECTS: -

- Child Psychology
- Play Based Curriculum
- Montessori Methodology
- Teaching and Learning
- Assessment and Observation

PRACTICAL SUBJECTS: -

- Communication and Computer
- Demonstration and Internship
- Thesis and Research Application
- Records, Assignments and Projects
