COURSE DESCRIPTION: -

The **Diploma in Nursery Teacher Training (NTT)** is a comprehensive one-year professional programme designed to prepare aspiring teachers for effective early childhood care and education. This course equips trainees with the knowledge, teaching skills, and practical classroom experience needed to work with children aged **2 to 6 years** in preschools, nursery schools, and early learning centres.

The programme combines **theory, practical training, child psychology, teaching methodologies, and classroom management**, enabling trainees to create joyful, child-centered, developmentally appropriate learning environments.

COURSE OBJECTIVES: -

- To develop an understanding of **early childhood growth, development, and psychology**.
- To train teachers in **modern preschool teaching methodologies**.
- To provide knowledge of **nursery-level curriculum planning and activity-based learning**.
- To develop competency in **art, craft, storytelling, rhymes, lesson planning, and teaching aids**.
- To prepare educators who can promote children's **cognitive, emotional, social, and physical development**.

KEY LEARNING OUTCOMES: -

After completing the course, trainees will be able to:

- Understand early childhood development principles.
- Use age-appropriate teaching strategies for young learners.
- Prepare and present creative teaching-learning materials.
- Plan and conduct classroom lessons, activities, rhymes, and stories confidently.
- Manage nursery classrooms effectively using positive guidance.
- Assess children's progress and maintain proper records.
