**COURSE DESCRIPTION: -**

The **Diploma in Primary Teacher Training (PTT)** is a comprehensive one-year professional programme designed to prepare skilled, confident, and child-centered primary school educators. This course equips trainees with strong foundations in **child development, pedagogy, subject teaching methods, classroom management, and educational psychology**, enabling them to work effectively with children aged **6 to 12 years**.

The programme integrates **theory, practicum, lesson planning, micro-teaching, subject pedagogy, and classroom internship**, ensuring trainees become competent primary teachers capable of handling multi-subject teaching in primary classes.

**COURSE OBJECTIVES: -**

- To provide an in-depth understanding of **child growth, development, and psychology**.
- To develop competency in **modern teaching methods and pedagogy for primary classes**.
- To train teachers in **curriculum planning, subject teaching (English, Mathematics, EVS, Social Science, Science)**.
- To build skills for **classroom management, discipline, communication & leadership**.
- To promote creativity, critical thinking, and inclusive learning approaches.
- To prepare teachers for **school-based teaching practice and professional behaviour**.

## **KEY LEARNING OUTCOMES: -**

After completing the course, trainees will be able to:

- Understand developmental needs of primary-level children.
- Prepare and deliver effective classroom lessons using activity-based methods.
- Teach core subjects like **English, Mathematics, EVS, Science & Social Studies** confidently.
- Use teaching aids, digital tools, and play-based learning strategies.
- Maintain classroom discipline, manage time, and guide student behaviour positively.
- Conduct assessments, maintain records, and communicate professionally with parents.

## **COURSE LESSON MODULE (THEORY)**

### **MODULE 1: Child Development & Educational Psychology**

#### **Lesson Topics**

- Meaning, nature, and importance of child development
- Stages of development (6–12 years)
- Physical, cognitive, emotional, social & moral development
- Major learning theories (Piaget, Vygotsky, Bruner, Skinner)
- Multiple intelligences theory
- Individual differences in primary learners
- Motivation, interest & attention in learning
- Classroom observation and child study

---

### **MODULE 2: Principles & Methods of Teaching**

#### **Lesson Topics**

- General principles of teaching

- Qualities & roles of an effective primary teacher
  - Teaching-learning process: steps & strategies
  - Play-way, activity-based, project, inquiry-based methods
  - Cooperative & collaborative learning
  - Importance of questioning and reinforcement
  - Lesson planning basics and writing objectives
  - Bloom's Taxonomy
- 

## MODULE 3: Curriculum, Pedagogy & Inclusive Education

### Lesson Topics

- Concept and importance of curriculum
  - Components of primary curriculum (Classes 1–5)
  - National Curriculum Framework (NCF – basics)
  - Thematic & integrated learning approaches
  - Inclusive education principles
  - Learning difficulties and special needs support
  - Classroom adaptation and differentiation
  - Value education & life skills for primary learners
- 

## MODULE 4: Pedagogy of English

### Lesson Topics

- Objectives of teaching English at primary level
- Language acquisition vs. language learning
- Listening, speaking, reading & writing (LSRW) skills
- Phonics, vocabulary building, sentence formation
- Teaching prose, poetry, grammar & composition

- Storytelling and reading comprehension
  - Use of teaching aids in English learning
  - Activity-based English learning techniques
- 

## MODULE 5: Pedagogy of Mathematics

### Lesson Topics

- Importance of teaching math in early primary grades
  - Number concepts, operations & place value
  - Basic geometry, measurement & time
  - Problem-solving strategies
  - Use of concrete materials (Abacus, counters, number cards)
  - Play-based and activity-oriented math teaching
  - Mental math & drilling techniques
  - Error analysis and remediation
- 

## MODULE 6: Pedagogy of EVS / Science

### Lesson Topics

- EVS concepts and objectives (Classes 1–5)
  - Observation and exploration techniques
  - Teaching the environment, plants, animals, air, water, food, shelter
  - Basic science concepts for primary grades
  - Hands-on activities and experiments
  - Field trips and nature-based learning
  - Charts, models, and real-life examples
- 

## MODULE 7: Pedagogy of Social Studies

## Lesson Topics

- Importance of Social Studies in primary grades
  - Family, community, neighbourhood, festivals
  - Basic geography (maps, directions, landforms)
  - Basic history (past, present, timelines, important events)
  - Civics (rules, responsibilities, good citizenship)
  - Activity-based Social Studies teaching
  - Project work and field visits
- 

## MODULE 8: Classroom Management & Behaviour Guidance

### Lesson Topics

- Organising the primary classroom
  - Seating arrangements & resource corners
  - Time management and daily routines
  - Managing discipline using positive techniques
  - Handling behavioural issues and conflicts
  - Teacher-student communication skills
  - Building a safe, supportive learning environment
  - Parent-teacher collaboration
- 

## MODULE 9: Health, Nutrition & School Safety

### Lesson Topics

- Healthy habits for students
- Nutritional needs of primary school children
- School hygiene and sanitation practices
- First aid basics

- Safety rules inside and outside school
  - Emotional and mental wellbeing
  - Child protection and safety guidelines
- 

## MODULE 10: Educational Technology & Teaching Aids

### Lesson Topics

- Importance of teaching aids in primary teaching
  - Types of teaching aids: charts, models, flashcards, puppets
  - Smart classroom tools & basic ICT
  - Using audio-visual tools effectively
  - Low-cost / no-cost material preparation
  - Digital learning tools for children
  - Integrating technology in lesson plans
- 

## MODULE 11: Assessment, Evaluation & Record Keeping

### Lesson Topics

- Meaning, purpose & types of assessment
  - Formative vs summative evaluation
  - Continuous and Comprehensive Evaluation (CCE – basics)
  - Tools: checklists, rubrics, anecdotal records
  - Report card preparation
  - Error diagnosis and remedial teaching
  - Reflective practice and teacher self-evaluation
- 

## MODULE 12: Professional Ethics & School Management

### Lesson Topics

- Professional behaviour and ethics of a teacher
- Work culture in primary schools
- Roles and responsibilities of teachers
- Basic school administration
- Conducting assemblies, events and co-curricular activities
- Documentation & record maintenance
- Leadership and teamwork in school settings

## **COURSE TRAINING MODULE (PRACTICAL)**

### **1. Micro-Teaching Practice**

- Demonstration of basic teaching skills
- Practice of set induction, explanation, questioning, reinforcement
- Use of teaching aids (charts, models, flashcards)
- Peer teaching sessions and feedback
- Lesson planning based on learning outcomes

### **2. Classroom Teaching Practice**

- Real classroom teaching in primary classes (I–V)
- Conducting period-based lessons in all core subjects
- Observation and feedback by supervisors
- Maintaining a reflective teaching diary
- Adaptation of teaching strategies based on learner needs

### **3. Preparation of Instructional Materials**

- Charts, models, flashcards, cut-outs
- Working models and creative TLMs for Maths & Science

- Story cards, picture reading sets
- EVS project displays and theme-based materials
- Low-cost and no-cost teaching aids

## **4. Lesson Plan Preparation**

- Subject-wise detailed lesson planning (English, Hindi, Maths, EVS)
- Learning objectives (Bloom's Taxonomy)
- Teaching-learning process steps and instructional strategies
- Use of worksheets and activities
- Assessment plan for each lesson

## **5. Activity-Based Learning (ABL) Practice**

- Conducting group activities and cooperative learning
- Storytelling, recitation, dramatization
- Hands-on learning for Maths & EVS
- Games and interactive learning
- Skill-based small group teaching

## **6. Child Observation & Case Study**

- Methods of child observation
- Recording behaviour, participation, interests
- Identifying learning difficulties
- Preparing a complete case study on one child
- Suggesting supportive strategies

## **7. Classroom Management Practice**

- Seating arrangement and classroom organization

- Managing behaviour and discipline positively
- Creating child-friendly learning spaces
- Time management and noise control techniques
- Facilitating an inclusive classroom environment

## **8. Assessment & Evaluation Practice**

- Preparation of oral and written assessment tools
- Designing worksheets, unit tests, and assignment sheets
- Maintaining learner portfolios
- Conducting remedial classes based on assessment results

## **9. ICT Skill Training**

- Using digital tools in classroom teaching
- Basic computer operations for teachers
- Creating digital presentations (PPT)
- Usage of smart boards, videos, and audio materials

## **10. School Internship / Teaching Internship**

- 1–2-month structured internship in a recognized school
- Observation of school timetable, routines, and academic planning
- Participation in morning assembly and school events
- Conducting classes independently
- Final teaching evaluation by mentor teachers

## **11. Co-Curricular & Extra-Curricular Activities**

- Organizing school events:
  - Art & craft activities

- Storytelling competition
- Poetry recitation
- Annual day, Sports day
- Maintaining CCA records

## **12. Project Work**

- Preparation of thematic project files such as:
  - Environmental Awareness
  - Child Development Study
  - Language Development Activities
  - Maths Lab Activities
- Documentation and presentation of project work

## **THEORY SYLLABUS CONTENTS: -**

### **1. Child Psychology & Primary Education Development**

- Growth patterns (6–12 years)
- Learning behaviour & developmental needs
- Theories of learning

### **2. Educational Principles & Pedagogy**

- Objectives of primary education
- Child-centered, activity-based & play-way methods
- Qualities & roles of a primary teacher

### **3. Teaching Methodology for Primary Subjects**

- Methods of teaching: Language, Mathematics, EVS
- Lesson planning

- Assessment & evaluation
- Inclusive teaching strategies

#### **4. School Organization, Management & Administration**

- School records & registers
- Time-table planning
- Parent–teacher communication
- Leadership & professionalism

#### **5. Child Health, Nutrition & First Aid**

- Health & hygiene
- Nutritional requirements
- Common childhood illnesses
- Basic first aid & safety rules

### **PRACTICAL SYLLABUS CONTENTS: -**

#### **1. Art & Craft – Practical**

- Drawing, painting, creative craft
- Teaching materials preparation

#### **2. Teaching Aids Preparation – Practical**

- Charts, models, flashcards
- Low-cost/no-cost educational aids

#### **3. Practice Teaching / Micro-Teaching – Practical**

- Lesson demonstrations (Language, Math, EVS)
- Teaching file preparation
- Classroom handling practice

## 4. Rhymes, Storytelling & Co-curricular Activities – Practical

- Story narration
- Action rhymes & songs

Dramatization, puppetry, role-play, games

## EXAMINATION SUBJECTS (SYLLABUS)

### ONE YEAR DURATION COURSE

#### THEORY SUBJECTS: -

- Child Psychology & Primary Education Development
- Educational Principles & Pedagogy
- Teaching Methodology for Primary Subjects
- School Organization, Management & Administration
- Child Health, Nutrition & First Aid

#### PRACTICAL SUBJECTS: -

- Art & Craft – Practical
- Teaching Aids Preparation – Practical
- Practice Teaching / Micro-Teaching – Practical
- Rhymes, Storytelling & Co-curricular Activities – Practical
